Art Unit: 1713

DETAILED ACTION

1. Newly submitted claims 18-28 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: These claims are to a method of forming a label which is a method of using the composition of the originally presented claims. The composition has other uses than forming labels, such as for adhering substrates to each other.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 18-28 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 1, 3, 5-7, 9 and 13-17 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Horsey et al.

Claims are rejected for reasons of record. Horsey et al teaches the claimed hot-melt adhesives with resin contents up to 90% and teaches up to 50% as preferred. The term "consisting essentially of" does not exclude ingredients that do not change the function of the composition. The additional "polymer" content over that stipulated in claim 13 is not, therefore, excluded either by the term "consisting essentially of" or by the amount of the polymer acting as a "cohesive strength improving" agent. The claims, therefore, still read on the components taught by Horsey et al and the presumption that the compositions taught would possess the required "hot tack properties" is still valid.

Art Unit: 1713

The claims are still, therefore, properly rejected under 35 USC 102 or 103 over reference to Horsey et al.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
